

IN THE SPECIFICATION

In response to the Examiner's objections to the specification within the Office Action and pursuant to a telephone conversation between counsel for the Applicant and the Examiner, Applicant directs the Examiner's attention to the Remarks section of the Preliminary Amendment in the image file wrapper for this file on the PAIR system. Within those Remarks sections, the marked-up specification and the substitute specification which were filed with the Preliminary Amendment have been scanned in. The substitute specification addresses the concerns outlined by the Examiner in the above-referenced Office Action. Applicant again respectfully submits that the earlier-filed substitute specification contains no new matter.
